

Famous Psychologist Presentations

Step 1: Choose a psychologist from the list below to research and present to the class.

Presentations will be no more than 5 minutes long and should cover the following:

- Biographical information (DOB, DOD, location)
- Contributions to psychology

Step 2: Create a presentation on Google Slides (Microsoft PowerPoint) to display your information for the class. You should include a picture of your psychologist and/or a short youtube video if you choose.

Step 3: Present! There will be no class time to work on this project. You and your partner should collaborate on Google to get the work done. Before you present to the class, change the sharing settings on your Google Slides Presentation. Click “get sharable link” and submit your project here: <http://goo.gl/forms/6i7oDVhGK3>

Choose a Psychologist from the following list for your presentation. Once you have chosen, tell Ms. G so she can take them off the list.
